

CRISIS CENTER & THE COMMUNITY:

The Crisis Center provides outreach and education to the community and relies on community partners, volunteers, and donors to support this important prevention-focused work.

Education, Outreach & Prevention:

Outreach programs include expert testimony, case consultation, technical trainings and educational workshops. Specific to youth and prevention, we partner with Douglas County schools for "The Outrage", a dramatic, theatrical presentation performed by teens-for teens, which exposes the threats and realities of teen dating violence and sexual assault.

CRISIS CENTER CLIENT TESTIMONIALS:

"No one really talks about or acknowledges domestic violence in upper socio-economic demographics, but the impact is just as real and, in some ways, even harder to overcome. The Crisis Center helped me tremendously, but more importantly my son has improved as a result of the resources at the Crisis Center. It is one of the few places my challenges have been understood and supported because domestic violence usually only ends once someone dies."

"The Crisis Center has been my safe haven. I feel valued, understood, feel compassion and nothing but support here at a time I was not getting it anywhere. It is helping me tremendously."

"I was so afraid and alone. My past had a lot of childhood abuse and my mom was abused. I continued the cycle. The Crisis Center saved my life. I don't have words to express how valuable of an agency this is. It has helped me find freedom, safety and peace for me and my daughters!"

"I thought the Crisis Center would only help my son with his trauma from domestic violence. I was so happy that I was also offered therapy as a single dad!"

WHAT IS DOMESTIC VIOLENCE?

Domestic violence is a pattern of behavior used to establish power and control over another person through fear and intimidation, often including the threat or use of violence. Domestic violence happens when one person believes they are entitled to control another. Assault, battering and domestic violence are crimes. Domestic violence can be physical, emotional, sexual or financial.

WHEN TO SEEK HELP:

Ask yourself these questions:

- Are you afraid of your partner?
- Has your partner ever threatened to hurt you or someone you care about?
- Has your partner ever tried to control most of your daily activities, been constantly jealous or ever followed or spied on you?
